PAUL MCDONALD

EXPERIENCE

With more than 20 years of experience as an Information Technology Professional, Paul focuses on all aspects of IT operations. He has vast experience with Microsoft 365, end-user computing, cloud, virtualization, cybersecurity, and project management. Paul provides leadership for the continued development of an innovative and secure information technology environment for Windham Brannon.

Prior to joining Windham Brannon, Paul worked as IT Manager for tvsdesign, a top architectural firm headquartered in Atlanta. Paul has worked IT in several sectors, including higher education, government, manufacturing, non-profits and professional services and is familiar with both the core IT requirements and nuances of each.
