

Denise Gaulin

EXPERIENCE

Denise Gaulin is a Principal for the firm's Healthcare Advisory Practice and is a recognized healthcare industry expert with more than 30 years of experience. Denise focuses on developing and providing services for healthcare organizations that involve medical necessity, quality reporting, clinical operations, coding, revenue cycle and regulatory compliance.

Prior to joining Windham Brannon, she was a senior client management executive who led complex engagements for a Top 20 national consulting firm, including procurement activities, scope development, strategy development and client management. She also helped to lead merger and acquisition due diligence on behalf of private equity and venture capital firms.

Denise has experience as a healthcare litigation expert, working cases that involved provider governmental investigations and payor-provider payment disputes. Denise was also one of the first healthcare industry women to earn an equitable partnership position in a Forbes Best Accounting Company.

Denise earned her Bachelor of Science from Radford University and serves as an instructor for the Healthcare Financial Management Association, American Health Law Association, Healthcare Compliance Association, Healthcare Information and Management Systems Society and the Association of Healthcare Internal Auditors.
